*LifeSuite™ Automated Underwriting*

# Maintain Your Competitive Edge

Imagine a system where your organization can access and process new business transactions quickly, accurately and consistently. A system where many manual tasks are reduced, workflow is managed and business processes are automated.

## **Imagine No More**

LifeSuite is an enterprise proven; scalable, Web-based new business / automated underwriting system that can significantly help streamline your new business and underwriting processes. LifeSuite provides a comprehensive integrated front-end solution designed to maximize the effectiveness and productivity of your new business and underwriting departments. LifeSuite will have a positive impact on your ROI by maximizing your investment in both human resources and legacy systems; and by streamlining new business workflow, extending the life of legacy policy administration

systems and by helping to lower policy acquisition costs, new business time-service and the number of not taken cases.

## **A Full Suite of Solutions**

LifeSuite features a suite of key, integrated components to completely automate new business processing from point-of-sale to automated underwriting and integration with back-office systems. The use of ACORD certified transactions and Webservices help facilitate seamless connectivity with third-party systems.

Core LifeSuite components include:

- Electronic application data capture
- Call center support
- Rating and automated underwriting
- Automated new business workflow
- Case management and correspondence management
- Requirements management and vendor integration
- Imaging integration
- Web portal for agents, reinsurers and customers
- Multilingual support
- Powerful, integrated, user-configurable rules engine

## **Single Customer View**

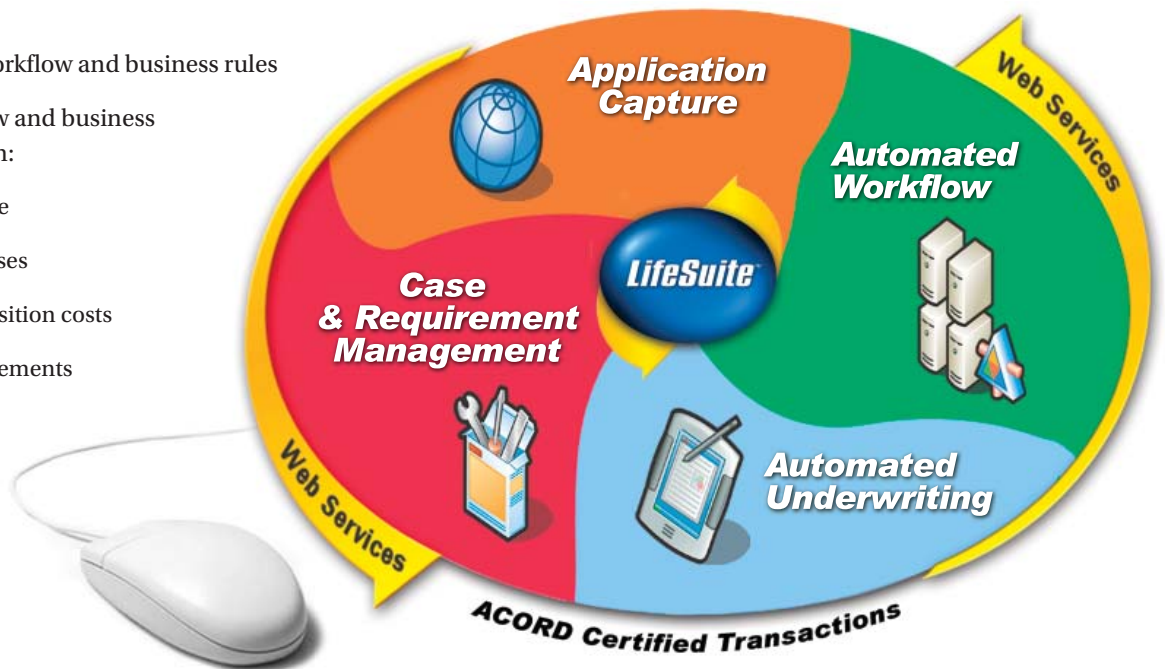

LifeSuite allows underwriters and case managers to quickly access valuable information including application and quote information, evidence, ratings and images using a common desktop. LifeSuite allows carriers to quickly analyze, monitor and measure performance and time-service throughout the new business life cycle.

## **LifeSuite Enables the Business User**

LifeSuite is designed to be maintained by the business user thus reducing the demands on IT resources. This, coupled with the flexibility of LifeSuite's functional components, helps reduce implementation timelines and reduce LifeSuite's initial and ongoing cost of ownership.

### **LifeSuite's Value Proposition**

- Production proven system
- Quick to deploy
- User configurable workflow and business rules
- Streamlines workflow and business processes resulting in:
  - Shorter time service
  - Fewer not taken cases
  - Lower policy acquisition costs
  - Streamlined requirements management
  - More consistency and reduced number of errors
  - Higher number of jet-issue cases

### **It's All About Support**

Just as you are committed to giving the best experience for your business partners and policyholders, we are committed to ensuring a successful implementation and ongoing support. Our experienced consultants offer a broad spectrum of services. We also offer a toll-free phone number for support, and our online reporting system lets you report issues around the clock. You are assured of a timely response from innovative experts.
