

PRO Financial Client Impressions

PRO Financial solutions are tailored to meet your unique statutory accounting and reporting requirements, and they are installed and supported by people who know and understand the insurance industry. Used by hundreds of insurers, these flexible applications expedite access to key financial information for informed decision making and convenient reporting. Here's what our clients have to say about PRO Financial solutions:

- "I appreciate how easy PRO Financial is to use. The system is maintained mostly by accounting department staff with very little involvement from our IT Department. This allows accounting greater control of the closing process, account and user maintenance, as well as reporting.

"PRO has taken us from a largely manual system of financial reporting using various sources and applications to where we now have the ability to create and run most of our reports directly from our general ledger. This has served to shorten the timing of our quarterly closes and reporting cycle as well as reduce errors."

*Debra L. Cusimano, Controller
NLC Insurance Companies*

- "Partnering with StoneRiver to implement PRO Financial software is one of the best decisions we made. The flexibility and security of the software is perfect for a growing company."

*Jennifer Gravelle, VP Financial Reporting
Olympus Insurance*

- "PRO Financial software is a flexible system that reduces the workload in our accounting department. Journal entry and account searches are streamlined. The financial reporting module enables accountants to create accurate financial statements quickly and easily without programming knowledge or IT assistance. The standard reports also improve our efficiency.

*Luis F. Rivera Flores, SVP - Finance
National Group*

- Hands down, StoneRiver has the best support team out of all 20+ applications I support. They knew about our server upgrade and even called me first thing Monday morning after the upgrade to make sure everything went through smoothly.

*Mike Kubacki, DBA
Safe Auto Insurance*

Let Us Show You

StoneRiver can enhance your financial reporting and analysis too. Live, Web-based overviews of PRO Financial software are presented monthly. Registration is easy—simply contact a StoneRiver representative at solutions@stoneriver.com or 800-373-3366.
